

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Marlborough European Multi-Cap Fund Class P Units

(ISIN Income GB00B90VHJ34)

This fund is managed by Marlborough Fund Managers Ltd

Objectives and Investment Policy

The Marlborough European Multi-Cap Fund aims to obtain capital growth.

The fund will invest predominantly in securities of European listed and/or domiciled companies, excluding the UK.

The fund may also invest in, but is not limited to, cash and near cash.

The fund may invest in derivatives and forward transactions for the reduction of risk or costs, or the generation of additional capital or income with an acceptably low level of risk.

The Investment Adviser to the fund decides which investments to buy and when within the constraints of the objectives and policy.

The fund is not constrained by a benchmark.

The Marlborough European Multi-Cap Fund pays income. If you wish to receive this please tell us. If you do not want to receive income we will reinvest it to buy more units for you.

You can sell all or part of your investment on a daily basis subject to the minimum holding requirements.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 10 years.

In addition to the charges set out in the charges section, the fund will incur transaction costs which are paid from the assets of the fund.

Risk and Reward Profile

The risk and reward indicator above aims to provide you with an indication of the overall risk and reward profile of the fund. It is calculated based on the volatility of the fund using weekly historic returns over the last five years. If five years data is not available for a fund, the returns of a representative portfolio are used.

As the risk and reward indicator is calculated based on historical data it may not be a reliable indication of the future risk profile of the fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This fund has been measured as 5 because it has experienced moderate to high volatility historically. The fund's volatility is affected by various factors including:

- The fund will be exposed to stock markets. Stock Market prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
- The fund will invest in the shares of smaller companies which are more volatile over shorter time periods.

Changes in exchange rates may affect the value of your investment.

A more detailed description of the risks that apply to this fund can be found in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 10/03/2017. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see Section 6 of the fund's prospectus, which is available at www.marlbroughfunds.com.
