Old Mutual Ethical Fund R (GBP) Accumulation Units (GB00B8RZ2W99)

a sub fund of Old Mutual MultiManager Trust. Managed by Old Mutual Investment Management Limited

Objectives and Investment Policy

Objective: a total return comprised of income and capital growth by investing in shares (i.e. equities) and similar investments of companies that demonstrate sound ethical practice.

Policy: the Fund invests in company shares and similar investments anywhere in the world, and seeks to exclude companies which fail to meet the prescribed ethical standards.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of reducing the overall costs and/or risks of the Fund.

The Fund is managed having regard to the FTSE World Index, however the Fund does not track the Index.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Treatment of income: As units in this class are accumulation units, income from investments will be reinvested into the Fund and reflected in the value of the units.

Dealing: you can buy and sell units on any working day in London.

Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

Funds in category 5 have in the past shown moderately high volatility. With a fund of category 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

Investment risk - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.

Strategy risk - the Fund invests in sectors and companies using an ethical investment strategy. This means the range of the Fund's investments may be more restrictive, and consequently the Fund may be less diversified than other investment funds.

Concentration risk (number of investments) - the Fund may at times hold a smaller number of investments, and therefore a fall in the value of a single investment may have a greater impact on the Fund's value than if it held a larger number of investments.

Currency risk - the Fund is denominated in British Pounds but may hold assets denominated in, or with exposure to, other currencies. The value of your units may rise and fall as a result of exchange rate movements between these currencies.

Derivative risk - the Fund may use derivatives to reduce costs and/or the overall risk of the Fund (i.e. Efficient Portfolio Management (EPM)). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet their contractual obligations.

Capital erosion risk - the Fund takes its charges from the income of the Fund in the first instance. The impact of Fund charges may be material on the value of any income you receive from your investment. There is potential for capital erosion if insufficient income is generated by the Fund to cover these charges. Capital erosion may have the effect of reducing the level of income generated.

For a more detailed explanation of risks, please refer to the "Risks" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.

One-off charges taken before or after you invest

Entry charge	Up to 5.00%
--------------	-------------

Exit charge	None
-------------	------

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.90%
----------------	-------

Charges taken from the fund under specific conditions

Performance fee	None
-----------------	------

The charges shown are the maximum figures. In some cases you might pay less. You can find out your actual charges from your financial adviser.

The ongoing charges figure is based on the annual management charge and the flat expense rate. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking and may vary from year to year.

You can find out more details about the charges by looking at Appendix A of the prospectus.

Past Performance

Past performance is not a guide to future performance.

The past performance shown does not take into account any entry or exit charges but does take into account the ongoing charge, as shown in the Charges section.

The value of the class is calculated in British Pounds.

The Fund launched on 23 September 2005. This class started to issue units on 18 February 2013.

In December 2015, the benchmark became the FTSE World Index. Prior to this date a different benchmark was in use.

Practical Information

The Trustee is Citibank Europe plc, UK branch.

Old Mutual Ethical Fund is a sub-fund of Old Mutual MultiManager Trust (the "Trust"). The assets and liabilities of each sub-fund are segregated from other sub-funds although it is not yet known whether a foreign court would give effect to segregated liability under a foreign law contract and so this is not certain in every circumstance.
