

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vanguard SRI Global Stock Fund (the "Fund")

A sub-fund of Vanguard Investment Series Plc

"Pound Sterling" Accumulation Shares

ISIN: IE00B76VTN11

Manager: Vanguard Group (Ireland) Limited ("VGIL")

Objectives and investment policy

- The Fund aims to provide long-term growth of capital by seeking to achieve the performance of the FTSE Developed Index (the "Index").
- The Index is comprised of large and mid-sized company stocks in developed markets.
- The Fund attempts to:
 1. Match the risk factor exposures of the Index by investing in a representative sample of the securities that make up the Index, excluding any securities which do not meet socially responsible investing criteria. The criteria take into consideration environmental, social and ethical factors as determined by the Index provider and exclude stocks that violate United Nations Global Compact principles.
 2. Remain fully invested except in extraordinary market, political or similar conditions.
- The Fund may invest in financial derivative instruments that could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value. Some derivatives give rise to increased potential for loss where the Fund's counterparty defaults in meeting its payment obligations.
- The currency of the share class is GBP.
- The Fund invests in securities which are denominated in currencies other than the share class currency. Movements in currency exchange rates can affect the return of investments.

- The Fund may engage in short term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- The Fund may not be appropriate for short-term investment.
- Income from the Fund will be reinvested and reflected in the price of shares in the Fund.
- Portfolio transaction costs will have an impact on performance.
- Shares in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in Appendix 1 of the prospectus) by submitting an application in writing. A full list of the days on which shares in the Fund cannot be sold is available on <https://global.vanguard.com/content/documents/calendar.pdf>

For further information about the objectives and investment policy of the Fund, as well as the limited relationship with the Index provider, please see Appendix 1 and Appendix 6 of the Vanguard Investment Series plc prospectus (the "prospectus") on our website at <https://global.vanguard.com>

Risk and reward profile

- | | | | | | | |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
 - The risk category shown is not guaranteed and may change over time.
 - The lowest category does not mean "risk free".
 - The Fund is rated 5 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - Movements in currency exchange rates can adversely affect the return of your investment.

The risk and reward indicator does not take account of the following risks of investing in the Fund:

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
- Index tracking risk. The Fund is not expected to track the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.
- Index sampling risk. As the Fund uses an index sampling technique whereby a representative sample of securities are selected to represent the Index, there is the risk that the securities selected for the Fund may not, in the aggregate, approximate the full Index.

For further information on risks please see the "Risk Factors" section of the prospectus on our website at <https://global.vanguard.com>
